## PRESENTATION

This website was created as a Technological Technical Product that is part of the Master's Research carried out within the scope of the Professional Master's Program in Teaching Health and Environmental Sciences - UniFOA. The elaboration took place between April 2020 and March 2022 and was guided by Professor Ana Paula Cunha Pereira. The objective is to present Project Based Learning (PBL) as a possible methodological strategy for teaching the theme "Education of Youth and Adults" within the scope of Degree Courses in order to expand the presence of this theme during the teacher training process.

## GET TO KNOW THE SITE

1

### WHAT IS A PBL?

In this section, we present the concept of PBL, for this, in addition to a short text, a video is available that summarizes the basic characteristics of the methodology.

2

### STEPS OF A PBL

Here, information is provided on the essential steps for the development of the Methodology.

3

### SUGGESTIONS

In this topic, editable file templates were made available that can be used in the operationalization of PBL.

4

### + ABOUT LEARNING AT EYA

In this section, materials are available that allow you to understand more about Youth and Adult Education.

5

### REPORT YOUR EXPERIENCE

This space was designed for the sharing of experiences from the use of PBL.
